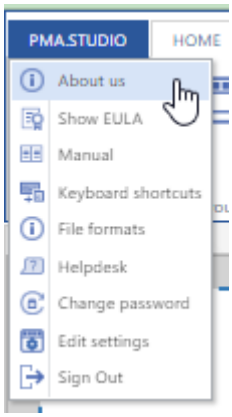
Context menu

The product indication label in the top-left corner of the PMA.studio and PMA.vue user interface serves as a drop-down menu.



The items in the menu are the same for PMA.studio and PMA.vue.

About us

This menu option brings up the about dialog with general information about the system.

This menu option is helpful in determining whether you use PMA.vue or PMA.studio, and what version.

If connected to a PMA.core instance and looking at a slide, the information is included in the dialog (as in the example above).
