What's new in version 2.2.3?

```
PMA.transfer 2.2.3.9d6e296f92 is an improved version of the
previous PMA.transfer with fixed bugs and new features in functionality.
```

General improvements

- Upload slides and folders to the Amazon s3 cloud.
- Upload slides and folders recursively.
- Displaying information about slides in the cloud directories window.
- Adding a new folder in the cloud directory.

New features in functionality

- Added the ability to fill folders with slides and subfolders recursively, this means that you can load a folder containing subfolders containing both folders and slides.
- Added the ability to delete several selected slides from the cloud directory at once.
