

# Cost and payment for using AI algorithms

## The cost for using the Case Sharing and AI is composed of two elements.

1. The subscription to the plan includes 25GB storage for images, unlimited sharing, an organisation for 50 users and access to the Pathomation AI Market place. The subscription plan can be expanded in function of more storage space. The subscription fee is due monthly but users can also opt to pay upfront for 3 months or a full year. In case none of the standard formulas fit with your need please ask for an individualised proposal at <mailto:info@pathomation.com>
2. The AI algorithms available in the Pathomation AI marketplace are from third party vendors. Use of these algorithms is subject to a payment per use. The price details of each algorithm can differ and will be visible when you select the algorithm for use on an image. At this point you can also see the remaining credit on your account, if you don't have enough credit, go to your account and open the payment module to make a payment.

Start by selecting manage organization from your personal settings

In the Line AI analytics balance, you will see your remaining credits and with top up you can purchase more credits to spend on AI analysis.

The screenshot shows the 'Organization' settings page. On the left, under 'AI analysis balance', there is a value of 800 tokens and a 'Top up' button. The main content area displays organization details: Name (Pathomation-demo), Role (Manager), Plan type (CustomFull 500), Total space (500GB), Consumed space (48.21% / 241.05 GB), and Expiration date (Jul 17, 2026, 19:48). The right sidebar contains 'Payment scheme', 'Payment type', 'Payments history', 'Management' (View licenses, members and invitations, Send invitations, Generate open invitation), 'Actions' (Leave organization), and 'Announcement tools' (Manage tools).

You can decide on how much to add, for simplicity we use tokens. One token corresponds to 1 EURO.

The dialog box is titled 'Top up your AI analysis balance'. It contains the following elements:

- AI Analysis Top Up** (Section Header)
- Use this form to add tokens to your AI analysis balance. Each token costs one euro (excluding VAT if applicable). Please select the desired amount, provide your invoice information and choose your preferred payment method to proceed.
- Enter amount** (Text input field)
- tokens** (Text input field)
- Please select:** (Label)
- VAT Number unavailable** (Radio button, selected)
- VAT Number available** (Radio button)
- Cancel** (Button)

If you do not represent a business and hence do not have a VAT number use this screen

The screenshot shows a web form titled "AI Analysis Top Up" for adding tokens to an AI analysis balance. The form includes a text input for the amount (set to 100) and a "tokens" label. Below this, there are two radio buttons for "VAT Number unavailable" (selected) and "VAT Number available". A summary table shows: Net amount: 100.00 €, Tax amount: 21.00 €, Total amount: 121.00 €. Under "Express checkout with", there are buttons for "Pay with link", "PayPal", and "iPay". The "Or pay by" section is titled "Card" and includes a "Secure, fast checkout with Link" link. It contains fields for "Card number" (1234 1234 1234 1234), "Expiry date" (MM / YY), "Security code" (CVC), and "Country" (Belgium). A "Bancontact" option is also visible at the bottom.

If you represent a business add your VAT number here, the correct VAT will be added according to your geography and situation

This screenshot shows the same "AI Analysis Top Up" form but with business information entered. The "VAT Number available" radio button is now selected. The form includes fields for: "WAT number" (A21234567), "Company Name" (Company name), "Country" (Select country), "City" (City), "Postal code" (00000), and "Address" (Street 0). A yellow checkbox is checked with the text "I declare this information is truthful and correct". A "Cancel" button is at the bottom.
