# How to host a mini-site?

Before you make a mini-site, make sure you've already uploaded some slides, created at least one case and one collection to add to your mini-site.

1. Go to "mini-sites" in the sidebar

2. Click on "Add mini-site" on the top right of the page

3. A new window pops up. Here you can enter a name for your mini-site. Once you've entered a name, click "Add".
