

# Integrating Your Interactive Slides into Powerpoint.

It's very easy to boost your powerpoint quality with [sharing a slide](#) with a QR code that people can scan and interact with on their phones and laptops.

## But we can go one step further

In this article you will learn how to integrate a fully interactive slide directly into a powerpoint slide that you can navigate during your talk without ever leaving the presentation.

## Video Guide

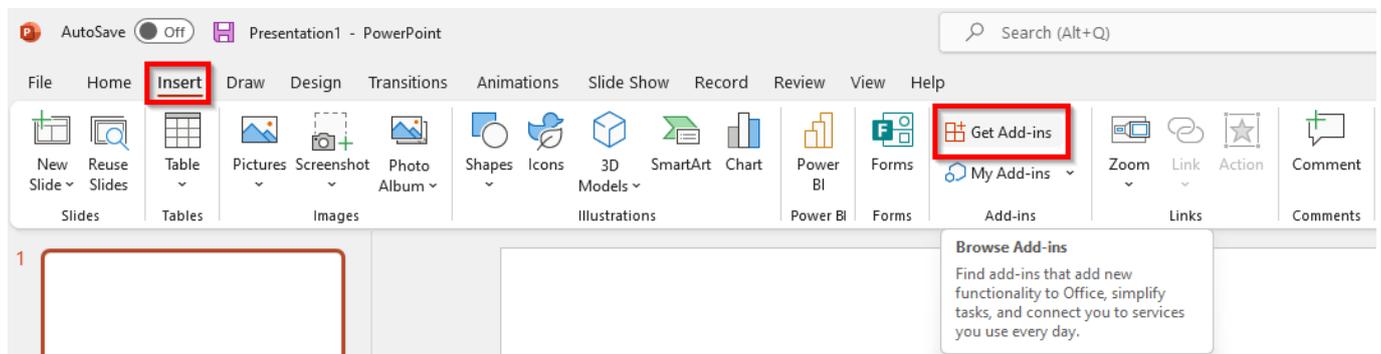

This helpful video explains how to get started:

<https://www.youtube.com/watch?v=hTghEqccVBk&t=5s>

Or if you'd prefer written instructions:

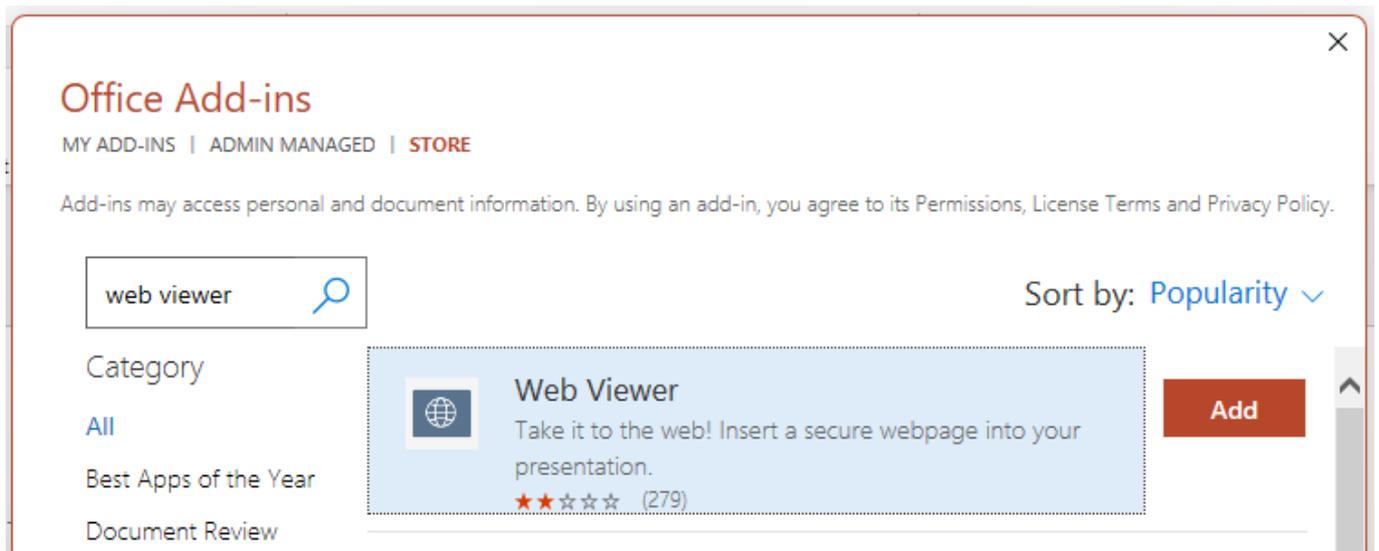

## Walkthrough

**Installing Web Viewer Plugin** 1) First off you'll need Web Viewer plugin for Microsoft Powerpoint. You can search and download this from: - Powerpoint via the 'Insert' tab and clicking 'Get Add Ins'

- Or the online office store

<https://appsources.microsoft.com/en-us/product/office/WA104295828?tab=Overview>

The screenshot shows the 'Office Add-ins' interface. At the top, it says 'Office Add-ins' with a close button. Below that, it lists 'MY ADD-INS | ADMIN MANAGED | STORE'. A warning message states: 'Add-ins may access personal and document information. By using an add-in, you agree to its Permissions, License Terms and Privacy Policy.' There is a search bar containing 'web viewer' and a magnifying glass icon. To the right, it says 'Sort by: Popularity' with a dropdown arrow. On the left, there is a 'Category' list with options: 'All', 'Best Apps of the Year', and 'Document Review'. The main area displays the 'Web Viewer' add-in card, which includes a globe icon, the title 'Web Viewer', the description 'Take it to the web! Insert a secure webpage into your presentation.', and a star rating of four stars with '(279)' reviews. A red 'Add' button is positioned to the right of the card.

- 2) Click Add, and follow the installation steps
- 3) Restart Powerpoint to complete the installation
