

My Pathomation wiki start page

My Pathomation is a cloud platform offering services for digital pathology applications.

Features

With My Pathomation you can store and share images for all scanner file formats. It comes with advanced features like annotation tools, collection organisation, access management and student course building. Registered users can store whole slide images (WSIs) and share them in an easy and universal way.

Whole slide images can be organised in folders but also be part of Collections, which in turn can be part of Slideboxes.

The tag features provides an additional layer of data for identification.

Organisations

Organisations in My Pathomation offer many interesting new features - you can create your own quizzes which feature your slides and many different question types including multiple choice, essay field, number input and more.

Organisations have multiple user profiles including managers, content editors and members, each with different access rights.

My Pathomation also comes with a course builder tool and easy setup and management of groups and

access right to all content.

Storage Options and Pricing

My Pathomation offers free image storage up to 10GB. For storing larger volumes of images, a monthly, volume-based subscription fee is required starting at 30 EUR for 25GB storage. Users can increase and decrease their required storage volume as required per organisation or personal workspace. There is no upper limit for the storage volume.

Free	Prepaid	Custom
0€	From 30€	Contact Us
Full access to ALL apps & features Totally free 10GB user storage limit	Full access to ALL apps & features Per month billing Up to 1000GB limit	Full access to ALL apps & features Plan fully customized to your needs Custom storage options
