

# My Pathomation Start Page

My Pathomation is a cloud platform offering services for digital pathology applications. Users can both create a personal space or run an organisation with multiple members.

## Features

With your My Pathomation personal space you can store and share whole slide images (WSI) for all scanner file formats. It comes with advanced features like annotation tools, collection organisation, sharing images via email, even adding digital pathology images direct in your powerpoint presentations is possible.

Whole slide images can be organised in folders but also be part of Collections, which in turn can be part of Slideboxes.

The tag features provides an additional layer of data for identification.

### Register

an individual or organisation account

### Upload

your digital pathology slides from your drives to the My Pathomation cloud

### Share

individual slides and slide collections with others either private or public

### Teach

with live digital slide microscopy in your presentations or classes

### Learn

at your own pace in on-line courses for students that have text instructions and interactive digital pathology slides

## Organisations

Organisations in My Pathomation offer many interesting additional features including featuring your fully interactive slides in [courses](#) and [quizzes](#), and adding your own [personal branding](#).

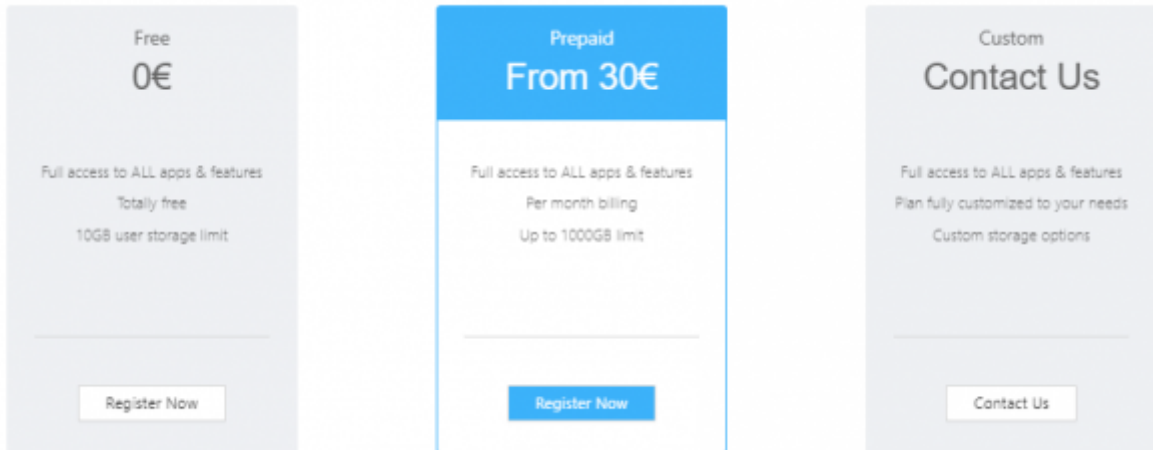

Organisations have multiple user profiles including managers, content editors and members, each with different access rights.

My Pathomation also comes with a course builder tool and easy setup and management of groups and

access right to all content.

## Storage Options and Pricing

My Pathomation offers free image storage up to 10GB. For storing larger volumes of images, a monthly, volume-based subscription fee is required starting at 30 EUR for 25GB storage. You can create organisations with up to 50 members by adding an additional monthly fee. Users can increase and decrease their required storage volume as required per organisation or personal workspace. There is no upper limit for the storage volume.

## We Support You(r file types)

The My Pathomation cloud platform is compatible with all routine whole slide image formats. If you find a filetype that's not included that you'd like to use, we'd love to hear from you so we can integrate it into our platform!
