

Accessing the system

In order to access PMA.control, you must log in using your credentials.

The screenshot shows the PMA.control login page. At the top left is the PMA.control logo. Below it is a 'Login' section with a text input field for 'Username, email' and a 'Password' field. A 'Keep me logged in' checkbox is checked. There are links for 'Forgot password?' and 'Click here to register'. A 'Sign In' button is located on the right. At the bottom, the Pathomation logo is displayed along with version information: 'v2.0.0.619' and 'PMA.core 2.0.0.622 ready'. A 'Log in dialog' label is at the very bottom.

PMA.control is a web application designed to operate efficiently using modern web browsers. It is fully functional whether accessed from a desktop workstation or a touch enabled tablet.

Devices with smaller screen size, such as smartphones, are compatible but not recommended, due to the limited available screen real estate.
