

Add a Participant Questionnaire to Your Training Session

Now that you've created your questionnaire form specifically for this training session, the next step is to link it to the training session.

- Open your training session and click on its name to go to the Edit page.
- Scroll down until you reach the Questionnaire Form section.
- From the dropdown menu, select the form you just created.
- Make sure to save your changes before leaving the page.

Once everything is saved, you can preview the training session to confirm that the form has been added correctly and works as expected.

Here is a full walkthrough video that guides you through assigning your custom form to your preferred training session.
