# Edit A Project

After hitting "Create" in the Create a Project menu, or navigating to an existing project by clicking on a project's name (1) or clicking "Edit" from the dropdown menu, you will be taken to the editing page.

Here you have access to several tabs which allow you to:

1. Ordered List Itemsee an overview of the project Details
2. Edit the project options chosen during Create a project
3. Add additional material
4. Add links
5. Perform integrity checks
6. Create custom annotations

Project Details

Here you can get an overview of what content and training sessions is already in the project. If no content has been added yet, you are made aware by the orange text and can click the bluetext link to get started
