

Introduction

PMA.control is a dedicated tool for training, re-training, tuning and testing of histopathologic tests or scoring systems.

It can be used for:

- training and retraining a scoring algorithm/system - tuning for an existing scoring algorithm/system (e.g. HER2 scoring system) - development of new scoring algorithm - ring studies

PMA.control is intended for use at departments of pathology and universities for training students and pathologist. It has a full audit trail allowing a full audit trail.
