Introduction

PMA.control is a dedicated tool for training, re-training, tuning and testing of histopathologic tests or scoring systems.

PMA.control is intended for use at departments of pathology and universities. It is intended as a tool education of students in (bio-)medical science and histologists, cytologists and pathologists.

- training and retraining a scoring algorithm/system

- tuning for an existing scoring algorithm/system (e.g. HER2 scoring system)

- development of new scoring algorithm

- ring studies
