

Introduction

PMA.control is a dedicated tool for training, re-training, tuning and testing of histopathologic tests or scoring systems.

PMA.control is intended for use at departments of pathology, universities and quality control organisations. It is intended as a tool for the education of students in (bio-)medical science, histologists, cytologists and pathologists.

It can be used for:

- training and retraining a scoring algorithm/system
- tuning and proficiency testing for an existing scoring algorithm/system (e.g. HER2 scoring system)
- development of new scoring algorithms/systems
- ring studies
- surveys
