

Scoring cases

If test active mode has been enabled for you by the supervisors, you can score each case of a case collection by filling in the form fields. Sometimes you might need to scroll down to the bottom of the right column, below the slide list to view the form:

In case an error occurs, a prompt will appear. You can close the prompt, correct any errors and submit the form again:

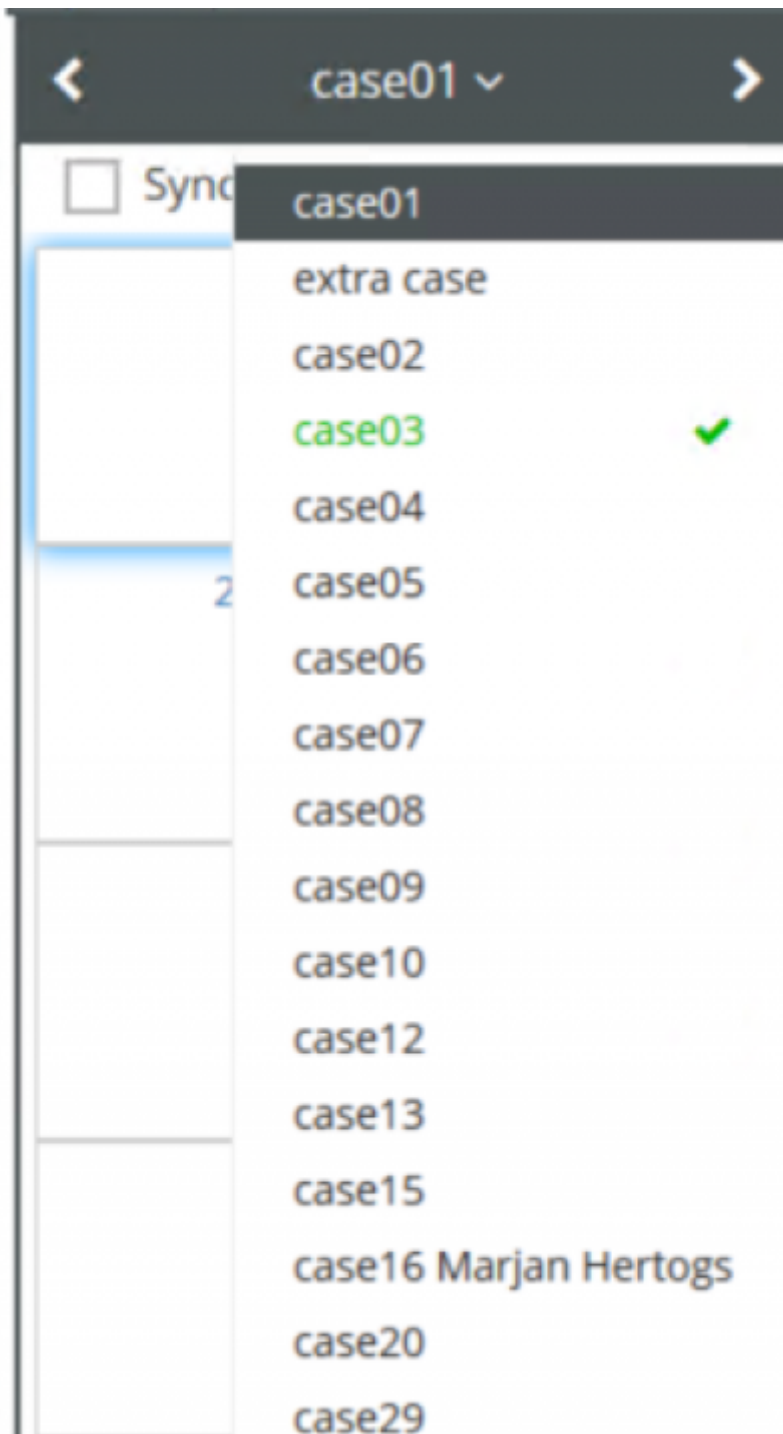

You can correct any individual field errors and submit again:

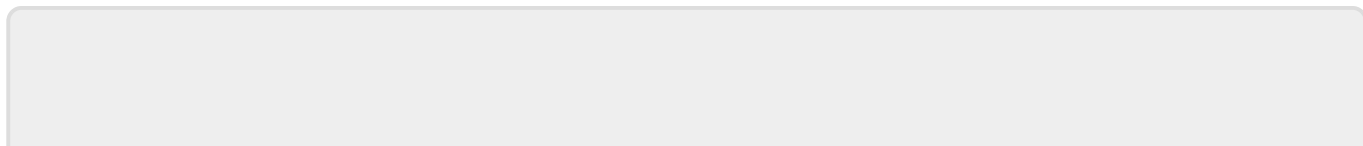

The image shows a web form with the following elements:

- A label **IC%** above a text input field containing the text "area covered by immune ce".
- A label **POS/NEG** above a dropdown menu that is currently empty.
- A red rectangular box highlighting the **POS/NEG** dropdown menu and the text "Please select a value" below it.
- Two buttons at the bottom: a dark grey **Submit** button and a white **Reset** button.

As you complete each case, the system displays the forms that you have already scored, by expanding the list of cases:

Finally, you can track your progress as well as overview all the cases you have scored so far, from the session main page and the score report page:
