

What is the PathoTrainer ?

The PathoTrainer is a dedicated tool for creating virtual spaces in which digital pathology education, data collection, and testing of pathologists with or without AI support are all facilitated.

Possibilities *It is intended for use by Pharmaceutical companies, departments of pathology, research institutes, diagnostic AI companies, universities and quality control organisations. You can use it for: ** design, development and validation of new scoring algorithms/systems, including an AI/ML algorithm * spreading awareness of biomarker scoring algorithm via live classes and independent self-directed courses * training and retraining a scoring algorithm/system * tuning for an existing scoring algorithm/system (e.g. HER2 scoring system) * ring studies and surveys **Suggested reading:**
