

# What is the PathoTrainer ?

The PathoTrainer is a dedicated tool for creating virtual spaces in which digital pathology education, data collection, and testing of pathologists with or without AI support are all facilitated.

## Possibilities

It is intended for use by Pharmaceutical companies, departments of pathology, research institutes, diagnostic AI companies, universities and quality control organisations.

You can use it for:

- design, development and validation of new scoring algorithms/systems, including an AI/ML algorithm
- spreading awareness of biomarker scoring algorithm via live classes and independent self-directed courses
- training and retraining a scoring algorithm/system
- tuning for an existing scoring algorithm/system (e.g. HER2 scoring system)
- ring studies and surveys
