What is the PathoTrainer ?

The PathoTrainer is a dedicated tool for creating virtual spaces in which digital pathology education, data collection, and testing of pathologists with or without AI support are all facilitated.

Possibilities
It is intended for use by Pharmaceutical companies, departments of pathology, research institutes, diagnostic AI companies, universities and quality control organisations.

You can use it for:

- design, development and validation of new scoring algorithms/systems, including an AI/ML algorithm
- spreading awareness of biomarker scoring algorithm via live classes and independent self-directed courses
- training and retraining a scoring algorithm/system
- tuning for an existing scoring algorithm/system (e.g. HER2 scoring system)
- ring studies and surveys
