

What is the PathoTrainer ?

The PathoTrainer is a dedicated tool for creating virtual spaces in which digital pathology education, data collection, and testing of pathologists with or without AI support are all facilitated.

Possibilities

PathoTrainer is used by:

- Pharmaceutical companies
- Pathology departments
- Research institutes
- diagnostic AI companies
- Universities
- and Quality control organisations.

You can use it for:

- Design, development and validation of new scoring algorithms/systems, including an AI/ML algorithm
- Live classes to broaden awareness of biomarker scoring algorithms
- Creating independent self-directed biomarker courses for pathologists
- Training and retraining a scoring algorithm/system
- Tuning for an existing scoring algorithm/system (e.g. HER2 scoring system)
- Ring studies and surveys
