# Administration

This is the administrative end of PMA.Studio where you can configure and handle important aspects of PMA.Studio viewer area.

This includes global settings, PMA.core servers, security, shared links, conference settings, server visits, system users and lot more.

## Configure server connectivity

## Interface and visualization

## Security settings

# Logging and troubleshooting

## https

We recommend hosting and running the administrative interface over https. If https is not detected, a warning message will alert you accordingly:
