Panel Configuration

PMA.studio allows configuration of different panels that appear on the UI through the admin section. The admin panel layout page allows to add xml based layout tags which are parsed by the front-end application accordingly. There are different kind of panel layouts including:

Default Layout

```
<Layout hasHeaders="true"
        reorderEnabled="true"
        selectionEnabled="false"
        showPopoutIcon="false"
        showMaximiseIcon="true"
        showCloseIcon="true">
    <Item type="row">
     <Item type="column" width="15">
      <Component name="ServerNavigation" label="Slide browser"/>
     </Item>
     <Item type="column" width="85">
      <Component name="Viewer"
            label="Viewer"/>
     </Item>
    </Item>
   </Layout>
```

Detail Layout

```
<Layout hasHeaders="true"
        reorderEnabled="true"
        selectionEnabled="false"
        showPopoutIcon="false"
        showMaximiseIcon="true"
        showCloseIcon="true">
    <Item type="row">
     <Item type="column" width="15">
      <Component name="ServerNavigation" label="Slide browser"/>
     </Item>
     <Item type="column" width="60">
      <Component name="Viewer"
            label="Viewer"/>
     </Item>
     <Item type="column" width="15">
       <Component name="SlideInfo"
            label="Info"
            height="70"/>
       <Component name="ColorAdjustment"
            label="Color"
            height="30"/>
     </Item>
    </Item>
   </Layout>
```
