Who should read this

Welcome to the user manual for PIMSLS, an universal web-based viewer for whole slide image (WSI) data, developed by Pathomation. This manual is intended for PIMSLS end-users, from beginner to experienced, those who are just discovering the software and those who need to further learn about its more advanced features.

Cockpit concept

PIMSLS acts as a cockpit for digital pathology content.

PIMSLS is a web-based graphical interface for digital pathology and virtual microscopy, intended for everyone, especially:

- People who want an easy, graphical way to administer digital pathology content
- Expert image analysts who want to conveniently view output from multiple analysis tools e.g. Visiopharm, Aperio... all in a single convenient interface, and do this remotely if desired.
