

# What's new in version 2.2.3?

PMA.transfer 2.2.3.9d6e296f92 is an improved version of the previous PMA.transfer with fixed bugs and new features in functionality.

## General improvements

- Upload slides and folders to the Amazon s3 cloud.
- Upload slides and folders recursively.
- Displaying information about slides in the cloud directories window.
- Adding a new folder in the cloud directory.

## New features in functionality

- Added the possibility to fill folders with slides and subfolders recursively, this means that you can load a folder containing subfolders containing both folders and slides.
- Added the possibility to unload multiple selected slides.
- Added the possibility to delete several selected slides from s3 the cloud directory at once.
- Added the possibility to create a new folder in the cloud S3 directory.
